

Belt Posts Fixed In-Floor

Choose from two grades of stainless steel or durable UPVC plastic. All posts are 63mm in diameter. Fixed in-floor installation using the aluminium slip post kit allows them to rotate for belt alignment while a security fixing prevents unauthorised removal. Available in a choice of six standard or four printed 3 metre belts with brake feature and self-locking clips. Slip post kits sold separately.

- Replacement posts & cassettes available for all belt posts.
- Smooth receiver clips to avoid snagging.
- High quality three metre belt.
- Durable self-locking clip.
- Available in six standard colours.
- Built in belt brake controls retraction rate when released.
